Open Q&A

Speaker Bios

Andrea Collins is a Sustainable Food Systems Specialist with NRDC. She focuses on making our food system more efficient, sustainable, and equitable. She aims to reduce food loss and waste by helping to create strategies that can be implemented at various stages throughout the supply chain, including on farms, within cities, and by companies. She is the author of the 2021 report *Feeding a City: Food Waste and Food Need Across America.c*

Alejandro Enamorado is a member of ReFED's Capital, Innovation & Engagement team working to spur investment in the food waste sector. In his position, he leads a funder network solely focused on food waste (Food Waste Funder Circle), advises funders and food businesses, and builds relationships with startups and nonprofits.
